

Privacy Policy

Effective Date: February 11, 2026

This Privacy Policy describes how ONE2id Interiors ("Company", "we", "us") collects, uses, and protects your information when you use the ONE2id Interiors QuickBooks Integration App ("App").

1. What the App Does

The App's sole function is to sync invoice-related data between the ONE2id Interiors invoicing system and your QuickBooks Online account.

2. Information We Collect

Through the App, we access and process the following data from your QuickBooks Online account:

- **Invoice data:** Invoice numbers, amounts, dates, line items, and payment status
- **Customer data:** Customer names, billing addresses, and email addresses as they appear on invoices
- **Authentication tokens:** OAuth tokens required to maintain the connection to your QuickBooks account

We do **not** collect:

- Bank account or payment card numbers
- Passwords
- QuickBooks data unrelated to invoicing (e.g., payroll, employee records, tax filings)

3. How We Use Your Information

We use the collected data exclusively to:

- Synchronize invoices between QuickBooks Online and our invoicing system
- Display sync status and history within the App
- Troubleshoot sync errors

We do **not** sell, rent, or share your data with third parties for marketing or any unrelated purpose.

4. Data Storage and Security

- Data is transmitted over encrypted connections (TLS/SSL)
- OAuth tokens are stored securely and are not accessible in plaintext
- We retain synced invoice data only as long as necessary for the integration to function
- Access to your data is limited to authorized personnel for support and maintenance purposes only

5. Third-Party Services

The App connects to Intuit QuickBooks Online via their official API. Intuit's handling of your data is governed by [Intuit's Privacy Statement](#). We are not responsible for Intuit's data practices.

6. Your Rights

You may at any time:

- **Disconnect** the App from your QuickBooks account, which stops all data syncing
- **Request deletion** of any synced data we hold by contacting us
- **Request access** to the data we have collected through the integration

7. Data Retention

Upon disconnection or termination of use:

- OAuth tokens are revoked and deleted
- Synced invoice data is retained only as needed for business records, or deleted upon your request

8. Children's Privacy

The App is not intended for use by individuals under the age of 18. We do not knowingly collect data from minors.

9. Changes to This Policy

We may update this Privacy Policy from time to time. Continued use of the App after changes constitutes acceptance of the updated policy.

10. Contact

For privacy-related questions or data requests, contact us at:
